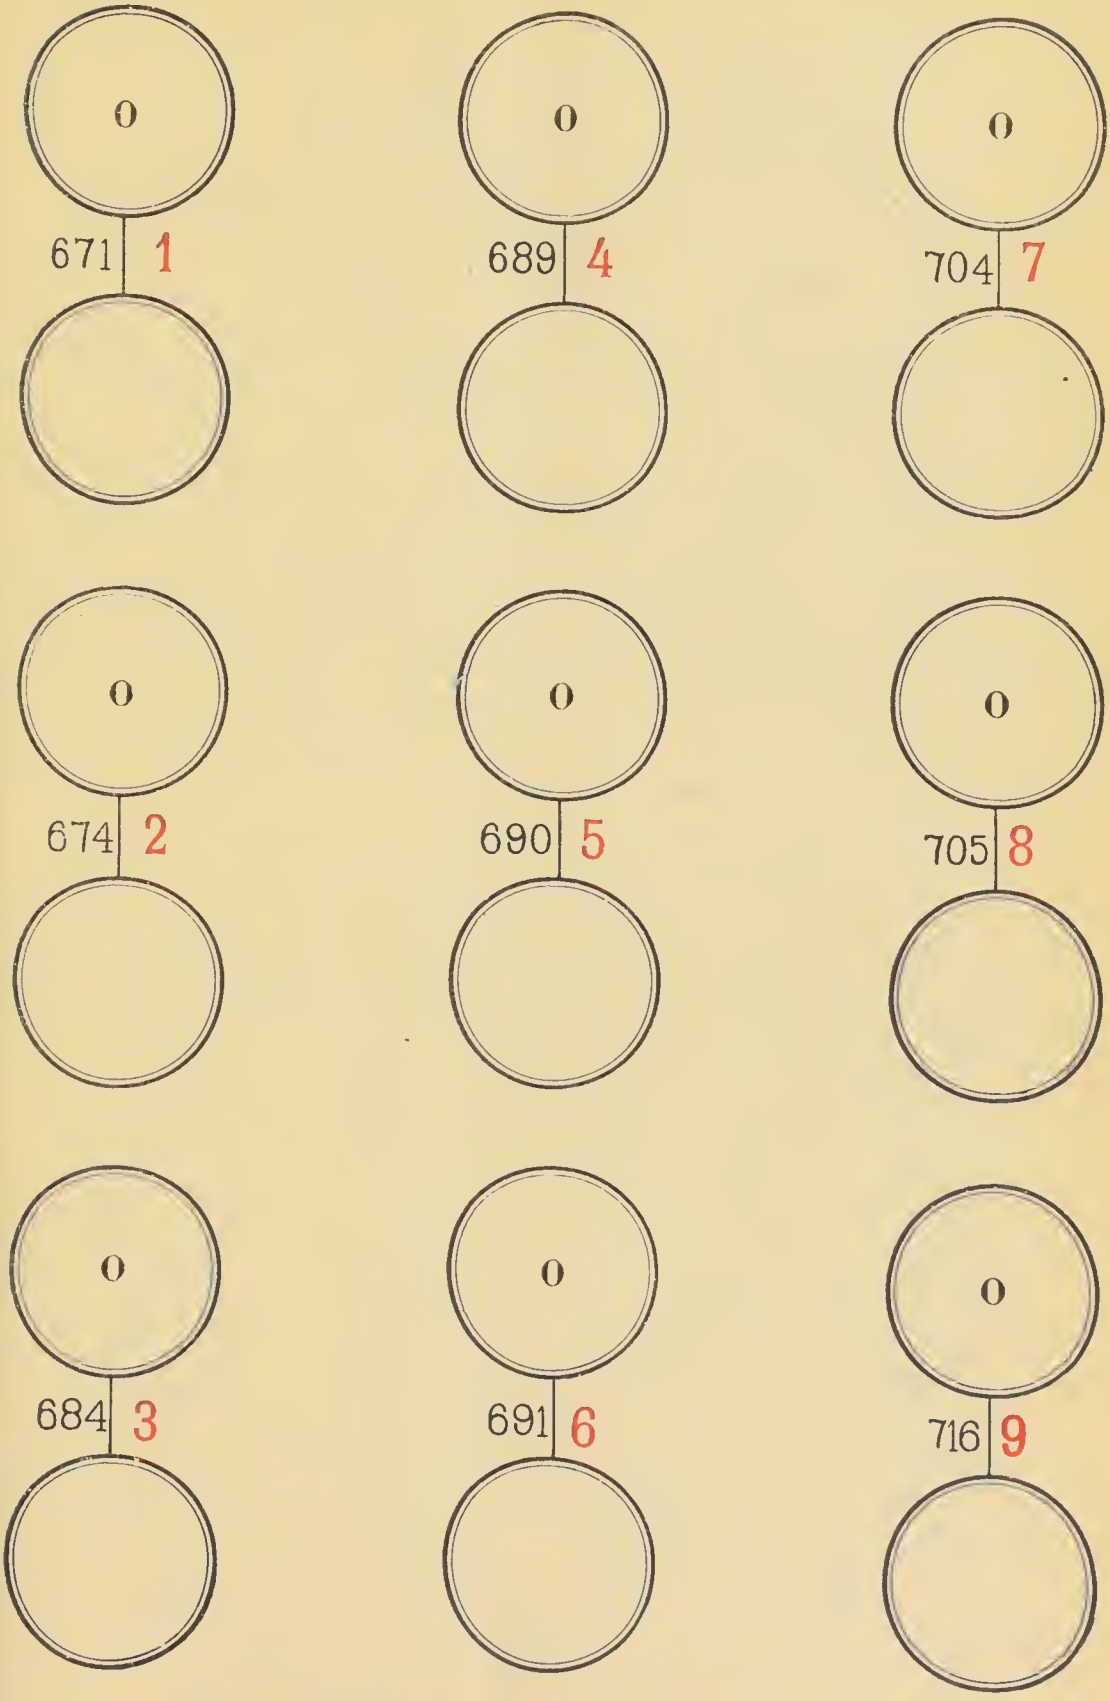
MONTREAL SOU TOKENS.

Arrangement by Lyman H. Low, 1909.



Group A. Singles. 18 Sides. 9 Pieces.

Group B. 3 Sides. 2 Pieces.

THESE four key-plates represent the foundation of my arrangement of the series which I expect to publish in a separate work within the next few weeks.

The numbers in black are Breton's, those in red are my own. I present these silent advance sheets, believing they will at once aid collectors in placing the different groups in their minds, ultimately leading to recognition of particular numbers. The circles lettered "O" in the centre represent obverses; the plain ones, the reverses.

LYMAN H. LOW.

CATALOGUE.

MONTREAL SOU TOKENS.

1 Obverse, Breton 670; reverse, 687. An unpublished combination. UN SOU is nearly invisible, otherwise the entire piece is very good. Placed in circulation more than seventy years ago, and from 1869 to 1908 escaped identity and recognition by Sandham, McLachlan, LeRoux, Breton and Courteau. 1

This piece came to me labelled as 686. It was probably passed as a duplicate of this number, by reason of the weakness of UN SOU, without further investigation. It is fairly illustrated by LeRoux 567, with a rudely engraved obverse, but a finely executed and true reverse. This reverse, however, he also uses in representations of 542 and 552 (B. 687 and 688), which are correct and the only employment of it published up to date. The true reverse belonging to 686 he does not illustrate in his work; we may therefore assume that he substituted it as a measure of economy, and was not aware that such a combination really existed.
